

Introducción a DevOps

Clase de introducción

Lucas Bonanni

The background is a complex, isometric illustration of a futuristic circuit board. It features a dense network of glowing orange and blue lines representing data paths or electrical connections. Several rectangular components, some with glowing blue lights, are scattered across the grid. The overall aesthetic is high-tech and digital.

About me .

Lucas Bonanni

Experiencia Profesional

- PedidosYa: Especialista en desarrollo de software para plataformas de alto rendimiento.
- Eventbrite: Contribuciones significativas en sistemas de gestión de eventos a gran escala.
- Thomson Reuters: Desarrollo de soluciones tecnológicas para el sector financiero y legal.
- Megatech: Proyectos variados en integración de sistemas y desarrollo de aplicaciones.

Formación Académica

- Tecnicatura Superior en Programación (UTN): Sólidas bases en algoritmos y estructuras de datos.
- Licenciatura en Tecnología de la Información (Palermo): Especialización en arquitectura de sistemas y gestión de proyectos tecnológicos.

The background is a detailed, isometric illustration of a futuristic circuit board. It features a complex network of glowing orange and blue lines representing data paths or circuitry. Several rectangular components, resembling microchips or integrated circuits, are scattered across the board, some with small blue light effects emanating from them. The overall color palette is a mix of light blues, greys, and vibrant oranges, creating a high-tech, digital atmosphere.

Conocimiento Mínimo Requerido

Conocimientos requeridos

- Inglés básico
- Cloud
- Git
- Docker
- Networking
- Bases de desarrollo

The background of the slide is a complex, isometric illustration of a futuristic circuit board. It features a dense network of glowing orange and blue lines representing electrical traces and data paths. Several rectangular components, resembling microchips or integrated circuits, are scattered across the board, some with small blue light effects emanating from them. The overall aesthetic is high-tech and digital.

Objetivo de la materia

Objetivos

- Tener una base de conocimientos y habilidades
- Entender el proceso de CI/CD
- Gestión de configuraciones
- Rendimiento y seguridad
- Monitoreo
- Automatización de infraestructura
- Aplicación E2E aplicando CI/CD
- Deploy de kubernetes ¹

¹Si llegamos con los timepos

The background is a complex, isometric illustration of a futuristic circuit board. It features a grid of blue lines representing traces, with various components like integrated circuits and capacitors depicted in a 3D style. Warm orange and yellow light glows from several points, suggesting active electrical connections or data flow. The overall aesthetic is high-tech and digital.

Base de conocimientos

Conocimientos a desarrollar

- Git
- Docker
- Container registry
- Terraform
- Kubernetes
- Cloud security

- CircleCI
- Jenkins
- GitHub Actions
- Nessus
- Datadog
- Grafana

The background is a detailed, isometric illustration of a futuristic circuit board. It features a complex network of glowing orange and blue lines representing data paths and connections. Several rectangular components, resembling microchips or modules, are integrated into the design, some with small blue light effects. The overall aesthetic is high-tech and digital.

Comunicación

Canales de Comunicación

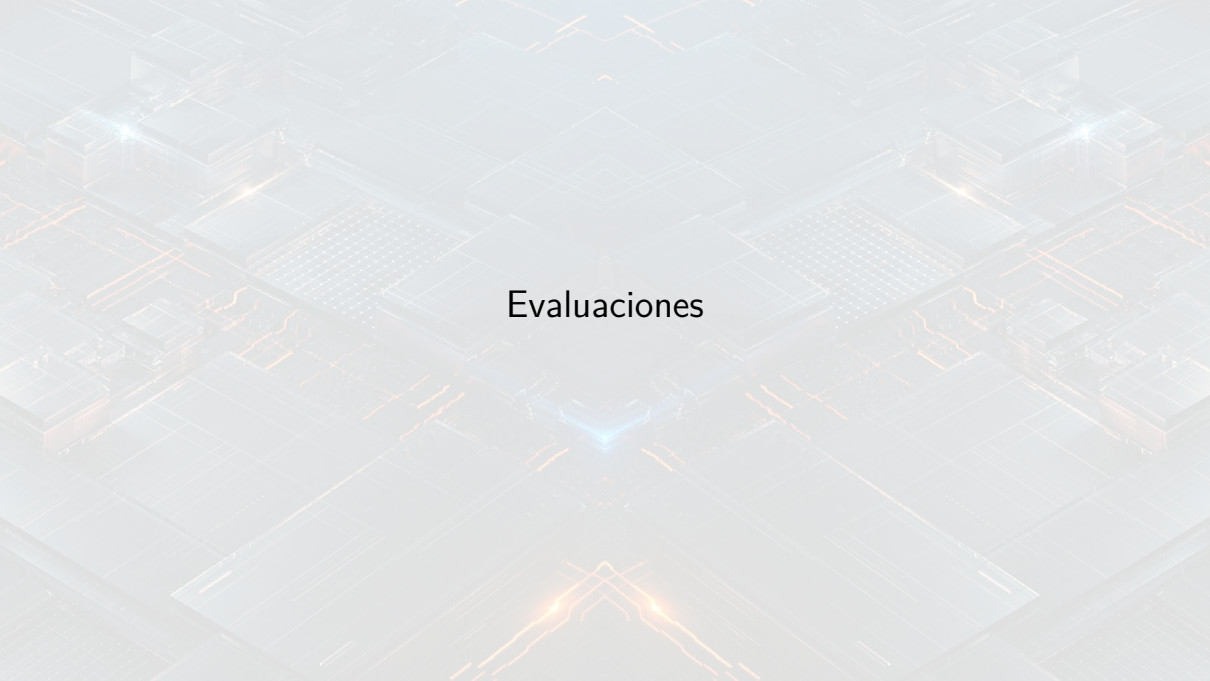

- Slack: Para consultas rápidas, dudas, ayudas y comunicación general.
- Blackboard: Para la entrega de trabajos prácticos, materiales de estudio, anuncios oficiales, faltas y comunicaciones formales.
- Pronto

The background of the slide is a detailed, isometric illustration of a futuristic circuit board. It features a complex network of glowing orange and blue lines representing data paths or electrical connections. Several rectangular components, possibly microchips or sensors, are integrated into the design, some of which emit a soft blue light. The overall aesthetic is high-tech and digital, with a cool color palette dominated by blues and oranges.

Trabajo Práctico Integrador

Aplicación E2E y CI/CD

extit(Falta el archivo images/diagrama-tp.png)

The background of the slide is a detailed, isometric illustration of a futuristic circuit board. It features a complex network of glowing orange and blue lines representing data paths or circuitry. Several rectangular components, some with glowing blue lights, are scattered across the board, giving it a high-tech, digital appearance.

Evaluaciones

Parciales

- Son dos parciales con preguntas a desarrollar, con respondus.
- Se necesitan de los dos parciales para aprobar la cursada.

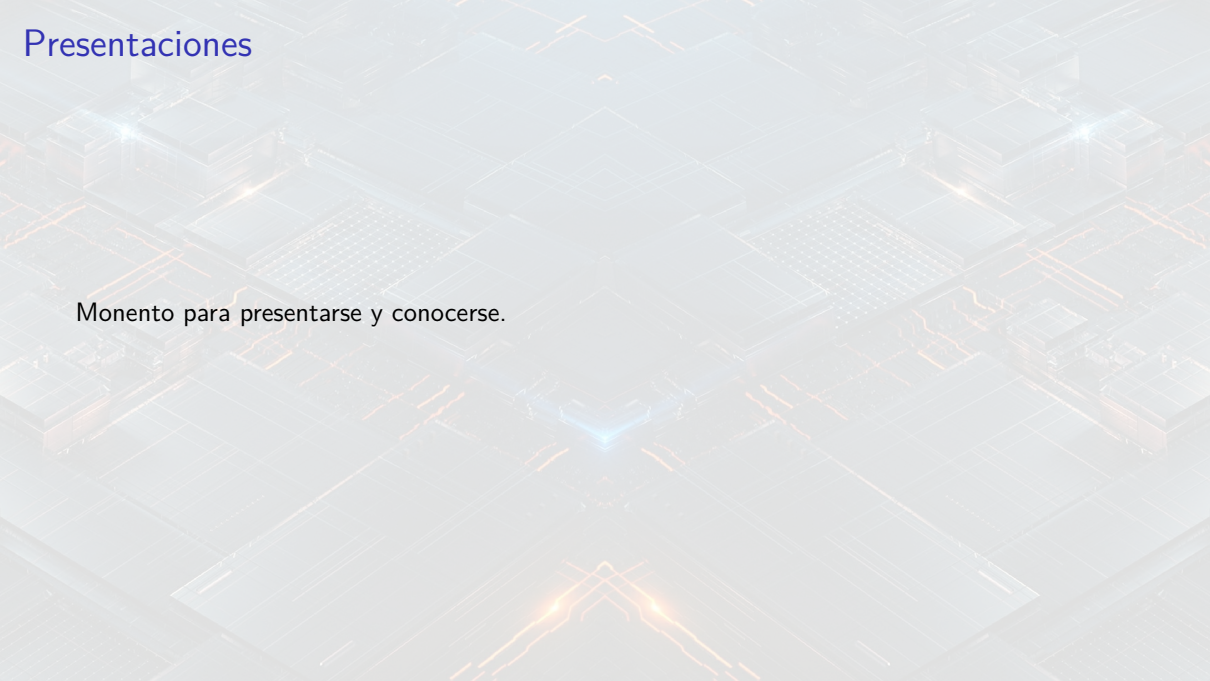

Trabajo Practico

- Requiere una presentación obligatoria antes del cierre de cursada
- Realizar PPT
- Realizar un informe.
 - Decisiones
 - configuraciones
 - Debe demostrar lo que aplicaron.
 - Usar imágenes y texto.

The background is a detailed, isometric illustration of a futuristic circuit board. It features a complex network of glowing orange and blue lines representing circuit traces, interconnected by various components and chips. The overall aesthetic is high-tech and digital, with a cool color palette dominated by blues and oranges.

Presentaciones.

Presentaciones

The background of the slide is a complex, isometric illustration of a futuristic circuit board. It features a dense network of glowing blue and orange lines representing data paths or circuitry. Several rectangular components, resembling microchips or server modules, are integrated into the design, some with bright blue light emanating from them. The overall aesthetic is high-tech and digital.

Monento para presentarse y conocerse.
